Professional Summary

Motivated and curious tech enthusiast with a solid foundation in Python and Django, actively seeking a backend development internship to apply and enhance my skills in a professional setting. Eager to contribute to real-world projects, collaborate with experienced developers, and grow as a capable and future-ready backend developer. Passionate about continuous learning, clean code, and practical problem-solving.

Education

- **Bachelor of Information Technology (B.IT)**
  Amrit Campus, Lainchaur
  Expected Graduation: 2026
- **+2 in Computer Science**
  Swati Sadan College, Macchapokhari
  Graduated: 2021

Projects

1. **Social Blog Application**
   - Developed a Django-based social platform where users can create posts, view posts from other users and manage their own content.
   - Implemented user authentication, profile creation and profile editing with profile picture uploads.
   - Built a clean, responsive UI and used Bootstrap for styling.

2. **Inventory Management System**
   - Designed a Django web app to manage products, suppliers, and orders.
   - Implemented role-based dashboards for admin and regular users.
   - Used Django signals to enable automatic user profile creation upon registration.
   - Structured for future scalability, using MySQL for data and Bootstrap for UI

Technical Skills

- **Languages**: Python
- **Frameworks:** Django
- **Databases:** MySQL, SQLite
- **Version Control:** Git, GitHub
- **Web Technologies:** HTML, CSS, JavaScript (Basic)
